The Coleman® legacy of adding convenience and fun to outdoor memories began over 100 years ago. No matter where you choose to adventure or relax, Coleman has the right product to enhance your outdoor experience.

GCI Outdoor believes the best memories are made outside, together. Through constant innovation, they are committed to enhancing every outdoor experience with products that provide a comfort zone to recharge, reflect, and reset. From perfect beach days to thrilling concerts, long hikes to ultimate tailgates—GCI Outdoor will be there as you connect, celebrate, and witness it all in your front row seat to life.

Outdoor Recreation Company of America (ORCA) was born from the desire to make a hard-sided cooler that beat out all the rest. Today, this Tennessee-based company is known for its American-made products that are built to last. With superior temperature retention, ORCA takes care of keeping food and beverages fresh so people can spend more time making memories with those they love. They are so sure of the quality of their products, that they back them with a lifetime warranty.

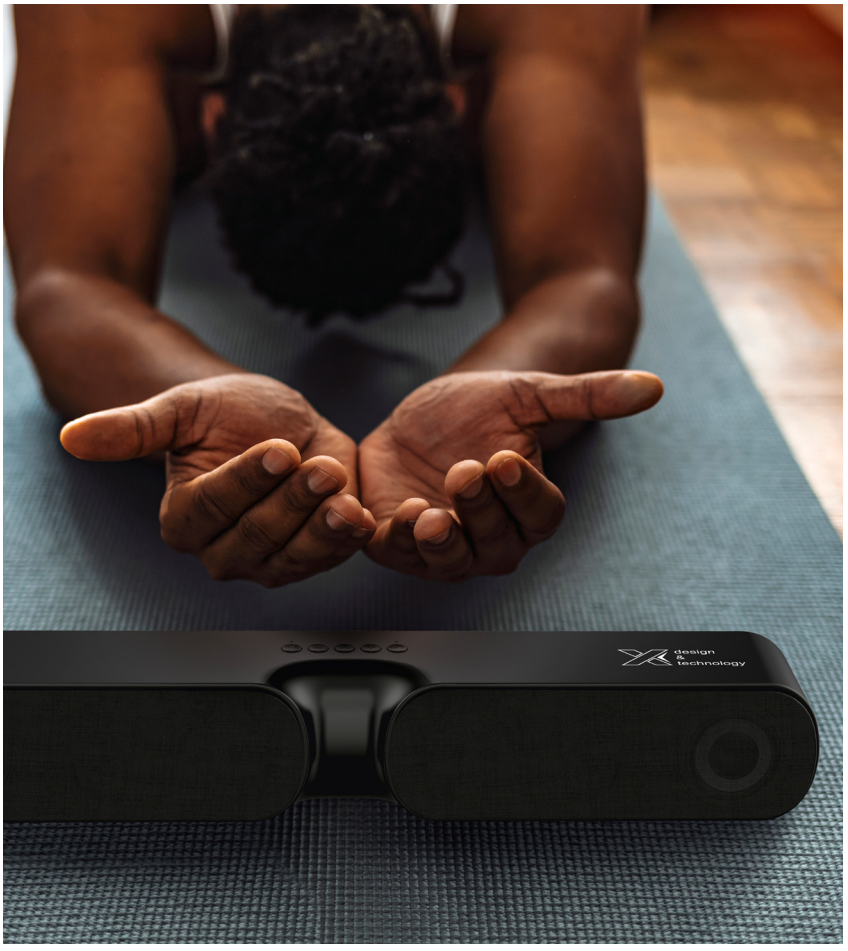

Four generations of craftsmen are responsible for the world's premier umbrellas! Designed in Portland, Oregon, where rain experts reside, Shed Rain is the only umbrella company that still maintains a U.S. manufacturing facility. Shed Rain proudly stands behind its umbrellas with a lifetime warranty.

All Shed Rain™ umbrellas and rainwear are PFAS free.

# Recycled Materials Glossary

**We're constantly adding new products made with recycled content or transitioning items to these types of materials.**
**Here's a quick guide to types of recycled content.**

## Recycled Plastics

**RABS – Recycled Acrylonitrile Butadiene Styrene**
Used primarily in injection molding applications, this material is most often found in pens.

**RPET – Recycled Polyethylene Terephthalate**
PET is the most common type of resin, and in its recycled form, it can be used in a variety of different products, from bags to headwear to pens.

**RPP – Recycled Polypropylene**
Polypropylene is the second most common plastic, and RPP is often used in bags and drinkware lids.

**RPVB – Recycled Polyvinyl Butyral**
Recycled PVB, or polyvinyl butyral, is a synthetic leather made from the repurposing of discarded laminated glass, such as windshields.

**RPU – Recycled Polyurethane**
Recycled polyurethane is both durable and flexible and can be found in a variety of products from packaging to bottles and bags.

## Recycled Metals

**rALU – Recycled Aluminum**
Infinitely recyclable, this material finds new life in pens, tumblers, and more.

**Recycled Stainless Steel**
The recycled version of this durable metal is often found in drinkware items.

## Recycling Methods

**Post-Consumer**
Recycled materials that are produced from goods that have passed through a consumer's hands.

**Pre-Consumer**
Recycled materials that are produced from scraps or discards created in the manufacturing process.
